Once you have the color numbers, you can get the colors mixed at other paint stores, such as Sherwin-Williams or Home Depot. Not all paint stores will have access to the DE color codes.

**Example of a color map.** If dwelling is changing any colors, please use this illustration or create your own showing how you will be applying the colors. Include this with your submission and note where the each color will be applied.

**Figure 1.** Example of a color map.
